SUMMARY

Enthusiastic and detail-oriented Software Engineer with a solid foundation in computer science principles and a passion for coding. Proficient in key programming languages such as C, Java, and experienced with Full Stack Web development using MERN Stack and Android development using Kotlin. Strong problem-solving abilities, effective communication skills, and a quick learner with a keen interest in emerging technologies. Eager to contribute to a dynamic development team and grow professionally in a challenging environment.

EXPERIENCE

Intern

Indian Oil Corporation Limited

December 2023 - January 2024, Guwahati

- Developed a Book Store Website using MERN Stack.
- Included an inventory management and authentication system.
- Created a full-fledged web application.
- Demonstrated effective project management and problem-solving skills.

PROJECTS

News App

personal • August 2024 - Present

- Developed an Android app using Kotlin and XML for UI design.
- Utilized Room for local data storage, Retrofit for network calls, and Dagger Hilt for dependency injection.
- Implemented data preferences for user settings and Paging for efficient data loading.

Weather App using Kotlin

Personal • July 2024 - August 2024

- Developed an Android app to provide real-time weather information for various locations.
- The app fetches weather data from a public API.
- It displays current weather conditions, and allows users to search for weather updates by location.

EDUCATION

Bachelor Of Technology in Computer Science and Engineering

The Assam Kaziranga University • Jorhat, Assam • 2025 • 7.65 CGPA

CERTIFICATIONS

HTML 5, CSS3, JavaScript, React.js

Infosys • 2024

The Complete 2024 Web Development Bootcamp

Udemy • 2024

INVOLVEMENT

Member

The Assam Kaziranga University • Google Developer Student Club • July 2022 - Present

SKILLS

MERN STACK: Mongo DB, Express.js React.js, Node.js.

Frontend Development: HTML, CSS, JavaScript.

Database Management: SQL.

Mobile Development: Kotlin, API Integration, Android Studio.

Language: C, Java.

Additional: Version Control (eg Git, GitHub), Data Structure and Algorithms.
